

ATTENTION 6th-8th grade STUDENTS & PARENTS

Students experience the power
of real world, project-based
learning!

We offer...

CURRICULUM

- Lessons & activities that guide students through the invention process. Students will pick a problem they care about and create an original prototype to solve the problem

MENTORSHIP & RESOURCES

- Industry professional mentorship for students as they design an original prototype + ongoing opportunities for students and educators!

COMPETITION

- Opportunities for students to compete in a series of escalating public competitions at the regional, national, and global level

Student inventors compete
for prizes, including free
patenting and prototyping!

**SIGN-UP by scanning the QR Code & start inventing
Wednesdays 5-6pm at Homewood Science Center!**

Informational Meeting November 1st @ 6pm

Program begins November 15th

Questions? Reach out to Tikia Kidd @ 708-856-2003
