INSTITUTE of
Museum and Library
SERVICES

exploring engineering

An in-school field trip for elementary students to gain skill, understanding, and self efficacy in the engineering design process.

IN-SCHOOL
FIELD TRIP
STARTING AT

\$100

- Engaging digital presentation
- Learn the history of Homewood's John Miller, a roller coaster inventor in the 1900's
- Experience the engineering design process first-hand
- Hear about engineering from real local engineers
- Create a roller coaster hill using everyday materials
- Option for Teacher-led or HSC Staff-led in your classroom
